

PROCUREMENT NOTICE PROGRAMME ENGINEER

Project country:	Belize
Financing institution:	International Fund for Agricultural Development
Sector:	Agriculture
Project name:	Resilient Rural Belize Programme
Title:	Specific Procurement Notice (SPN)
Procurement type:	Individual Consulting Services
Procurement Post:	Programme Engineer
Loan/Credit/Grant Financing No.:	2000002301

Background: The Government of Belize (GOB), with financing from the International Fund for Agricultural Development (IFAD) and the Green Climate Fund, has embarked on a six-year Programme, Resilient Rural Belize (RRB), which aims to minimize the impacts of climatic and economic events on smallholder farmers while supporting sustainable market access for their produce. The Programme will help farmers employ climate resilient agricultural practices and technologies; integrate profitable smallholder participation into the development of select vegetable, fruit, and honey value chains; and support smallholder production capacity through investments in public and private climate resilient infrastructure and in the strengthening of small holder farmer Producers Organizations and relevant GOB Departments.

Scope of Service: Under the direct supervision of the Programme Manager the Programme Engineer will be responsible for overall guidance and management of the infrastructure investment related activities under the Climate Resilient Rural Infrastructure (CRRIA) component of the Resilient Rural Belize Programme (Be Resilient) in accordance with the Programme Implementation Manual (PIM), and regulations and procedures for supervision of design and civil works as per the applicable legislation of Belize. The Programme Engineer will be responsible for supervising and guiding activities of the PMU Institutional Development Specialist and Consultants involved in the design and supervision of works, ensuring that due regard is given to the quality and quantity of works to be implemented throughout PMU operations in the framework of the Programme's CRRIA component.

Duties and Responsibilities: The following will therefore be the responsibility of the Programme Engineer.

- In cooperation with the PMU's relevant staff, participate in information workshops and sensitize rural communities about the component, its objectives, eligibility criteria, and application and selection procedure.

- Screen and rank the proposals in accordance with the criteria and procedure described in the PIM and develop recommendations, based on evaluation, for infrastructure fund award for Programme Oversight Committee (POC) review and approval.
- Assess whether the proposed civil works are required or whether other, more appropriate structures may be more suitable.
- Review proposed works in relation to other possible alternatives.
- Develop Terms of Reference for development of engineering designs for proposals selected for funding and implementation.
- Monitor and guide consultants' activities selected for development of engineering designs.
- Review detailed engineering designs in terms of sound technical solutions, quality and identified scope and volumes of works.
- Arrange for the independent review of designs (if required) and Environmental and Social Impact Assessments (ESIA) from relevant institutions as per the legislation of Belize, so as to mitigate all social and environmental impacts reflected in the design.
- Participate in Bid Opening and Evaluation Committee in evaluation of bids for consultancy services and civil works implementation.
- Provide support to the Procurement Officer in the management for all contracts for works procured by the PMU and for the implementation of the CRRIA component, including approvals of contractors' submittals (payment certificates, variation orders, completion certificates, etc.) and notifications to the contractors (defects, penalties, etc.) and any other issues as specified in the general and special conditions of contract.
- Participate and contribute in discussions with applicant, design companies and other interested parties in decision-making during the construction stage.
- Supervise the implementation of civil works and coordinate activities of site supervisors in accordance with agreed procedure and standard formats.
- Ensure the compliance of design works and construction works with the technical requirements and ensure the overall quality of works is of acceptable standards.
- Organize the 'handover' of completed infrastructure facilities to the relevant institutions according to stipulated procedures.
- As a member of the PMU, prepare annual work plans and budgets for the CRRIA component, provide reports and information on infrastructure investment operations as necessary to the Programme Manager and contribute to progress reports.
- Ensure full compliance with the technical specification as per design, and in the case where technical changes are to be made liaise with designers to effect changes.

Academic Qualification and General Experience: The Programme Engineer must possess.

- A minimum of a BSc. In Civil Engineering or related field.
- A minimum of five (5) years' experience in civil engineering works.

Specific Experience: The Programme Engineer must possess:

- A minimum of five (5) years' working experience with projects for infrastructure rehabilitation (roads, bridges, drainage, etc.). Experience with projects funded by an International funding agency would be an advantage.
- A minimum of three (3) years' experience in engineering design, revision, and its related requirements.
- A minimum of three (3) years' experience in a supervisory position.

Report: The Programme Engineer will work closely with the technical staff of the Programme Management Unit but report directly to the Programme Manager. The duty station for the position will be at the PMU Headquarters in Belmopan.

Application Submission:

Interested candidates are requested to submit a Letter of Interest, Curriculum Vitae, and two (2) Recommendation letters or References along with a copy of the highest degree via the following File Request Link: <https://bit.ly/3dzNuEz>

The deadline to submit applications is Wednesday, May 12, 2021 at 3:00p.m. **ONLY APPLICATIONS SUBMITTED VIA THE FILE REQUEST LINK WILL BE ACCEPTED.**

Applications should be addressed as follows:
